

Commonwealth of Kentucky
Division for Air Quality
EXECUTIVE SUMMARY

FINAL

Conditional Major, Construction / Operating

Permit: F-07-005

WW Welding, Inc.

Frenchburg, KY 40322

Date April 19, 2007

Sajjad Quabili, Reviewer

SOURCE ID: 21-165-00011

SOURCE A.I. #: 81517

ACTIVITY ID: APE20060001

SOURCE DESCRIPTION:

On August 31, 2006, the source applied to the Division to construct an additional building to manufacture and paint metal waste containers. The process includes a paint booth, a dip tank, welding machines and plasma cutters.

WW Welding is potentially major for VOC emissions. The source accepted federal enforceable limit for VOC emissions to become a conditional major source. The allowable VOC emission limit is 90 tons during any consecutive 12 month period.

PUBLIC AND EPA REVIEW:

On March 14, 2007, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in *The Foothills Courier* in Frenchburg, Kentucky. In addition, notification of the issuance of the draft permit was sent to the U.S. EPA on March 1, 2007 via e-mail. The public comment period expired 30 days from the date of publication. No comments were received during this period. The permit is now being issued final..
